**IMPORTANT:** Follow procedure below. Numbers are written on parts for easy identification. Locate all parts, bolts and nuts in direction indicated. **NOTE:** Position ladder mounting holes in line for proper location of ladder.

**NOTE: HOLES FOR LADDER MUST LINE UP WITH UPPER LADDER SECTION.**

### ASSEMBLY:

- 1 Assemble top 10' section of stand and *BLYND* per instructions included with each, excluding step 10. **NOTE:** Do not install four bolts indicated by arrows (↑) in illustration. If previously installed – remove and retain these bolts.
- 2 Assemble four 5' leg extensions (#1A) to the legs (#1) with the four adapters (#2A) and eight 5/16" x 2" bolts and nuts.
- 3 Locate extension cross brace (#4A) in position over 10' existing frame members ( #3 & #6) and secure with one 5/16" x 2-3/4" bolt and nut.
- 4 Place extension frame member (#3A – with ladder holes) between leg extension (#1A) and cross member extension (#4A). Secure to leg with one 5/16" x 2-3/4" bolt and nut. Secure opposite end of cross member to leg with one 5/16" x 2-3/4" bolt and nut.
- 5 Follow same procedure for remaining three frame members (#6A).
- 6 Assemble ladder side rail extensions (#9A) to bottom of upper rails (#9) with two 5/16" x 3/4" bolts and nuts.
- 7 Attach ladder rails (#9A) and one rung to cross member (#3A) with 5/16" x 2-3/4" bolts and nuts.
- 8 Secure three remaining rungs with six 5/16" x 1-3/4" bolts and nuts.
